Bill Burrows:

I am pleased to confirm your reception of our station.

Thank you for taking the time to send us a DX report from your country. The following is some information about our station. CKBC started broadcasting twenty four hours a day on September 1st, 1986; but we have been on the air since 1955.

Our antenna location is Lat. 47 37 25, Long. 65 37 26, and the studios are about 5 km. west of the antennas. The antennas are two Andrew 1/4 waves, 181 feet high, and 181 feet apart. The antennas are aligned at 207, and are directional. The main transmitter is a Harris MW-10 (10 kw) and the backup is a Collins 5 kw.

The studios consist of a master control (on-air), two production studios, and a newsbooth. The staff is made up of twenty full time and two part time employees.

We broadcast a variety of programs, including adult contemporary, country, easy listening, and religious programs (on Sundays).

Once again, thank you for listening!

Sincerely,

Kevin Chamberlain
Station Engineer
